Week 5

CO-OPERATION - RESPECT - PERSISTENCE - ACHIEVEMENT

IMPORTANT DATES

Term 1

Week 7

Monday 14th
March

Adelaide Cup Day

Week 9

Monday 28th
March

Pupil Free Day

End Of Term

Week 11

Thursday 14th
April

EARLY DISMISSAL
2:15pm

School Resumes
Monday 2nd May

Dear Families,

Welcome to another fast moving school year!

Swimming 2022

Swimming is an essential part of the DfE Curriculum. Unfortunately this term, swimming for Years 3—5 was cancelled due to COVID restrictions. We are currently trying to reschedule this for later in the year but the Aquadome is currently booked out.

R-2 swimming is in Term 2, Week 8, 20th—24th June. A permission slip will come home at the beginning of Term 2. There is a small cost involved and the deadline for fees to be paid is by **Friday the 17th June**.

COVID

There have been some classroom community members who have tested positive to COVID. If you have received a letter from you classroom teacher it is really important to monitor your child/ren for any flu-like symptoms for 14 days. If they are sick, even mildly, please keep your child home and get them tested as soon as possible. The safety and well-being of our students and staff are paramount. Always follow SA Health advice and take all necessary precautions to minimise the risk of further transmission within our community.

Pupil Free Days

Monday 28th March, staff will participate in Mathematics Professional Learning based on Professor John Hattie's best pedagogical practices.

Please contact OSHC on 82831927 if you require care for your child.

Dress Code

Just a reminder as the weather starts to cool that the dress code includes plain **yellow or dark green tops**—this includes jackets and jumpers. **Black jackets and jumpers are not permitted.** Uniforms can be purchased either from the school or stores such as Big W, Kmart and Target.

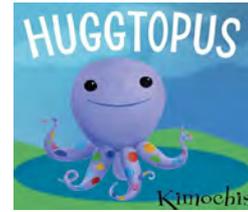

Regards

Jenn Young
Deputy Principal

Learning about Health and Wellbeing

with 1N

In Health and Wellbeing, 1N have been learning about Kimochi's. We have learnt that the word Kimochi means 'feeling' in Japanese. The Kimochi's help children to build confidence and feel comfortable about talking about their feelings. In 1N we are encouraging children to use tone of voice, body language and appropriate words to communicate in positive ways before and during the heat of an emotional moment.

We know that when children can communicate their feelings effectively, they develop positive social skills that lead to lasting friendships and success in all aspects of life.

Here are some of our drawings of the character Huggtopus. Huggtopus is always smiling and enjoys hugs. She is very affectionate but sometimes she gets carried away by her big friendly character.

Thoughts from our Crossing Monitors: What we really want you to know.

This term, the Year 5s and 6s started crossing monitor duties. Week 4 was 5/6J's turn for duty. It was a new experience for everyone and there was a lot to remember. Crossing duty is a super important role because we keep everyone safe - pedestrians and drivers alike. Here are some of the important things that we would like you to know about using the crossing and being a monitor:

- Crossing monitors are trained by SAPOL. They are taught how to use the equipment properly and how to give voice commands.
- When the signs are up, cars need to stop, so that pedestrians can walk across the road safely.
- Cars need to travel no faster than 25kms per hour, when the lights are flashing.
- Pedestrians need to stand behind the signs and wait to cross. They also need to walk across the road—no running, please.
- Crossing monitors need to concentrate on their jobs, so please don't distract them while they are on duty.
- Sometimes cars need to queue for the traffic lights. Please do not stop your car on the crossing.
- The safest way to cross the road is to use the crossing. Please use the crossing whenever there is one close by.

Always remember,
safety first!

5/6J

3 V

This term in Science we have been learning about solids and liquids.

Our class has explored the fastest way to melt ice! We found that melting ice in your hands is the fastest method.

We had lots of fun experimenting how to turn a solid into a liquid.

**Salisbury Primary School
Governing Council
2022**

Would you like to be a part of decision making, organising events, fundraising, supporting families to take part in children's learning and representing our community?

You should join our Governing Council!

There are vacancies on the Council this year, no qualifications needed.

Meetings held twice per term in the evening.

If you would like to nominate yourself or for more information contact the Front Office.

Common Traffic Signs

The City of Salisbury has implemented a comprehensive traffic management and parking scheme in the streets surrounding your child's school to help make it a safe place.

Going against the road rules places not only your child's life at risk, but those of others. Tragedies can occur if care is not taken to abide by these rules. Below are some explanations of signs that are placed around schools to ensure your child stays safe.

No Parking Signs

Drop off and pick up only. You must not queue or wait here. The driver must remain with the vehicle.

No Parking Signs

The same rules apply as the previous 'No Parking' sign, however, the rules only apply during the times and days shown on the sign.

No Stopping Signs

You must not stop in a 'No Stopping' area at anytime. Drop off and pick up is not allowed even for the briefest

Yellow Kerb Lines

An unbroken yellow kerb line is a no stopping line and therefore the same rules apply as for a 'No Stopping' sign.

Bus Zone Signs

You must not stop within a bus zone at any time. This zone is only available to public buses.

Obstruct Driveways

A vehicle must not obstruct an entrance way or crossing point to a property, even if it is your own.

Reserves, Footpaths & Verges

It is an offence to drive or park on a reserve, footpath or dividing strip and could cause an accident, injure a pedestrian or damage property.

Parking Around Schools

Due to the chaotic nature of traffic around schools at peak times, streets can be an extremely dangerous place for children.

Young children have not yet fully developed their cognitive abilities and therefore their perception, judgement and awareness of potentially dangerous situations is not adequately developed to enable them to cope with the road traffic.

Children are not easily visible and often act impulsively, which means if you are driving around a school take special care, to ensure we keep our children safe. Remember that children copy grown-ups - encourage good road sense by watching them closely and leading by example.

5 Helpful Tips for School Zones

As parents and caregivers we have a great responsibility to ensure children stay safe in school zones. We also play a key role in educating children about road safety. Here are 5 helpful tips for safety in school zones:

1. Allow enough time to take your child to the school gate safely and without rushing.
2. Always observe parking signs and speed limits in and around school zones. They are designed to keep your child safe.
3. Talk about signs and traffic lights with your child. Identify and discuss places where it is safe to get out of the car and cross the road.
4. Teach your child how to cross the road using the 'stop, look and listen' process - stop at the kerb, look and listen for traffic and then decide whether it is safe to cross.
5. Park a few streets away and walk your child to school. This is also good exercise and helps teach your child road safety rules.

Behaviours to Avoid

- Speeding
- Double parking
- Parking too close to an intersection
- Parking across driveways
- Parking too close to pedestrian crossings
